## Profile

I have over 20 years experience within the design field and my passion and interest in this area continues to grow. I am an individual who thrives within the team environment and enjoys new challenges and opportunities to develop additional skills, knowledge and ideas.

## Experience

### Creative Co-Ordinator, Jigsaw Interior Architecture: 2016 - Present

I am involved in many elements of the design process and work closely with all members of the design team. I provide support with inspiration and product selection during the design process and support during project installation and styling. My role also includes overseeing all on-line and social media output plus the design and content of the company newsletters and website.

### Creative Manager, WN Interiors of Poole: 2014 - 2016

The role of creative manager was to help lead the current and future design direction of the business. I played a key role in pitching for new work, providing design inspiration to the studio team, working on initial design concepts and securing a coherent on-line and social media company profile, reflecting the work done by the studio design team. I was also responsible for all buying and dressing of completed projects, working closely with a photographer to capture the correct images to conclude each project. I was also solely responsible for the design and content of monthly newsletters aimed at generating new leads and raising the company profile.

### Designer, Ecologic Developments: 2013 - 2014

Responsible for the design of various small space wooden structures and control of all on-line and social media output.

### Senior Designer, Ikea UK: 2009 - 2013

The role was to design, implement and maintain the showroom to improve sales and introduce new products within the existing structure, in addition to determining how the Ikea range is displayed. I also worked centrally with Ikea UK on numerous marketing and PR campaigns and was one of the lead designers involved with the "Living with Children" policy across the UK and Europe. As senior designer, I was also responsible for mentoring new designers when they joined the store design team.

**Founder, PostLiving: 2012 - Present**

I set up PostLiving Style blog as my own personal creative outlet for all things design. The style blog generates high visitation rates and is the best way for me to keep a record of what inspires me. I continue to have a passion for collecting ideas and inspiration from a varied range of sources.

**Freelance Stylist: 1994 - 2003**

Stylist and set dresser for film and television for nearly 10 years.

TV Commercials - including Sainsbury's Jamie Oliver Campaign, Philadelphia Cheese, Carphone Warehouse, Coco-Cola, Yell.com, Safeway, BT, Eurostar and AA

TV Series - The 1900's House, The 1940's House

Music Videos - George Michael, Oasis, Elbow and many more

**Skills**

AutoCAD, Microsoft Office, photography, social media, marketing, branding, styling, buying, project management, website layout and art direction, strong presentation skills, film and television design and production, studio experience, retail design and layout, commercial and residential design, practical skills, strong knowledge of design skills and ability to work independently or within a group.
